INCOME TAX BAR ASSOCIATION, RIAPUR

President's communiqué

Dear Members,

CA B. SUBRAMANYAM

After having hectic professional work like tax audits, successful e-assessment etc. now we have entered into Budget Month of New Year 2020. Friends, Hon'ble Finance Minister Niramala Sitharaman on 1st February, 2020 while presenting Budget, 2020 introduced a new optional Personal Income Tax system and announced multi-billion dollar farm, infra, and a healthcare package to revive growth in the country. Emphasizing on capacity building and empowerment of marginalized sections of the society while protecting the wealth creators, Sitharaman said this Budget will boost income and purchasing power of the people. Finance Minister also raised the bank depositor's insurance coverage to Rs 5 lakh from Rs 1 lakh. The Budget highlights are published elsewhere in the news letter. It is clearly reflected in the

finance bill that emphasis has been given on more digitisation of the economy by making amendments in the direct taxes. New regime of optional personal income tax system has been introduced, the success of which depends on how the financial markets reacts to it over the time.

From the Tax revenues perspective, 2019-20 is proving to be a dysfunctional year. The government had budgeted gross tax revenues of Rs 24.59 lakh crore. There is likely to be shortfall of Rs. 3.5 - 3.75 lakh crore in gross tax collections of the Centre.

The income tax department has also launched a faceless e-assessment scheme to eliminate interface between an assessing officer and a taxpayer. To begin with, 58,322 income tax cases have been selected under the National e-Assessment Center (NeAC). There is pressure on the government in meeting revenue target due to sagging economy. The economy has hit six-year low of 5% during the first half of the current fiscal. The overall growth of the current fiscal likely to remain subdued and various estimate indicates that the GDP growth to be lower than 5 per cent, putting pressure on the tax collection. Besides, the government decision to lower corporate tax rate will have revenue implication of Rs. 1.45 lakh crore and rollback of enhance surcharge and other measures will also bring down tax collection.

As per the 2020 edition of World Bank's Ease of Doing Business ranking, India jumped 14 places to 63 in the overall ranking, riding on the sustained business and economic reforms undertaken by the government over the past several years. India has climbed 79 positions in the last five years and has been among the top ten performers for the third year running. According to reports, India improved its ranking on seven out of ten indicators tracked by the World Bank with the highest 56-place jump to 52 in resolving insolvency. We are hopeful and confident that this will indeed be achieved. This will help us in attracting foreign investment, boosting the sluggish economy and thereby enhancing the country's overall competitiveness.

Recently, the bar has got the opportunity to facilitate newly posted Chief Commissioner of Income Tax Raipur Shri Rajkumar Lachhiramka where a representation was made by the bar for various issues being faced by the our members in the department in day to day working. The CCIT has assured to look into the matter and take necessary steps in this regard.

President's communiqué

We are also pleased to inform that Past President of our IT Bar, Raipur CA R.B. Doshi has been Co-opted as a Member of National Executive Committee (NEC) of All India Federation of Tax Practitioner for the term 2020 and 2021.
